

Yaa Asantewaa Girls old students donate to alma mater

By Daniel Kenu, TANOSO

THE 1978 Year Group of the Yaa Asantewaa Girls Senior High School has presented 200 plastic chairs to its alma mater to furnish the newly-constructed assembly hall.

The year group is also liaising with the main old students association to encourage all branches to provide at least two plastic chairs each to augment what is currently available.

The hall needs at least 2,500 plastic chairs and the association said it was working hard to assist in that direction.

A member of the group, Mrs Joana Frimpong, who was the school prefect at her time, said the presentation followed an earlier one made three

years ago by the group during the presentation of computers and an amount of GH¢1,000 to the school as part of the association's homecoming ceremony.

She, together with the administrator of the group, Ms Ernestina Rose Baiden, and about 10 other members pledged their unflinching support to make the school maintain its status as one of the best in the region.

The Headmistress of the school, Ms Asuande Eshun-Famiyeh, appealed to the group to help fill the e-library with computers and other reading materials.

She also said the increase in the population of students called for more toilet facilities to improve sanitation and a healthy lifestyle.
